We just filed a police report for making cyber terrorist threats. My attorneys are drawing up the paperwork for a slander and defamation suit. These cult members attacking victims ends now.

I'm about to round them all up. Excited. Let's put some ethics in, shall we? 🙄

This Kathy person... does she realize I have no clue who she is? She tweeted me countless times over and over some insanity? Then she threatens me when I'm just utterly confused then called me a pedo!

I seriously don't get her. She sounded like she had her own experience and didn't get help and then wham she's stalking, threatening and slandering you! But yes! Let's put some ethics in around here and start knocking some proverbial heads! NO OSA that's not a threat! 🤔

Just alerted @TwitterSafety that @adventuresofkg is suicidal. She may have attacked me out of the blue & is making heinous claims about me & my family, but I would be sick if she killed herself or someone. @lapd needs to check on her she's threatening others& threatening suicide

Absolutely. If she's truly as suicidal and/or homicidal as her tweets and blog posts demonstrate her to be then she needs an intervention, genuinely. I hope it's taken seriously and she gets the help she clearly needs.

I do, too...but she could just be trying to mess with me more. So I will continue with the plans to put her ethics in. Get help or pay the price for your actions. End of story.
